

Senior Product Designer

helping teams decide what to build, what to cut, and how to turn ideas into production-ready systems.

17 Years of experience

DAIMLER

Senior Product Designer at Lumenalta (Agency)

2020—2026

Designed startup and enterprise software products through a consulting relationship. Worked across product strategy, UX architecture, interface design, design systems, and delivery—using AI-native workflows to clarify direction, map complex flows, define reusable patterns, and move ideas toward production.

Product Design Manager at ScreamingBox (Agency)

2014—2020

Led product design across startup and enterprise projects. Supported hiring, ran designer interviews, aligned stakeholders, and translated requirements into clear product direction.

Design Lead at Gooten (Startup)

2012—2016

Owned UX for a print-on-demand and dropshipping platform. Worked with founders and engineers, scoped design work, improved team workflow, and reported progress to senior management.

Earlier Career (Startup) (Agency) (TV) (Press)

2007—2012

Designed web, mobile, brand, motion, and broadcast work for agencies, small businesses, TV media, and press organizations.

Computer Science and Economics, Computer and Communication Sciences

2000—2004, 2004—2006

University of Economics in Bratislava, High School of Electrical Engineering
